

## Revivogen® Scalp Therapy Directions: Apply to clean and dry scalp. Shake well before use.

1.

Comb hair back

2.

Depending on the size of the affected area use 1-2ml of Revivogen Scalp Therapy to lightly cover the area.

3.

Part hair with dropper and drag across the scalp, lightly dripping the formula. Continue this process in small sections until all affected areas are covered.

4.

If the scalp therapy starts to run, massage into scalp. Leave on scalp for 3 hours or leave on overnight.

## Helpful Hints

- \*Taking before and after pictures to evaluate your progress and keeping a positive outlook is very important.
- \*Revivogen Scalp Therapy must be applied at least once daily to the affected and surrounding areas. For ease of use apply 1 hour before bed time and wash off with Revivogen Shampoo and Conditioner in the morning. Daily shampooing is not required
- \*Revivogen Bio-Cleansing Shampoo and Conditioner can increase the formula's effectiveness but are not effective individually.
- \*After each use, remove the eyedropper assembly and close the Scalp Therapy bottle with the original cap to avoid leakage.
- \*Store Revivogen Scalp Therapy in a cool and dry place.
- \*Less than 2% of the users may initially experience scalp irritation that may include mild itching, redness, and flaking of the scalp. If irritation occurs use Revivogen Bio-Cleansing Shampoo or an extra strength dandruff shampoo.
  
- \*Within the first 4-8 weeks some users may experience minor shedding. This is similar to the shedding associated with the use of Propecia® and Rogaine® (Minoxidil) and is a positive sign that the product is actually working by switching the hair follicles from resting phase (Telogen) to growth phase (Anagen). If you notice any shedding, the regrowth would result in new hairs from the growth phase.

## What to Expect

- \*Within 4 - 8 weeks you can expect a significant decrease of hair loss and appreciate a difference in how your hair looks and feels.
- \*Within 3 - 6 months your scalp can look fuller and denser. For best results Revivogen must be used daily for at least 6 months.
- \*Maximum benefit occurs within 12 - 18 months. Once you achieve your maximum results, you can reduce using Revivogen to few times a week for maintaining your results. You must keep in mind that Revivogen takes 3 to 6 months before you can fully appreciate the results.
- 90 day Guarantee:** To receive a refund, minus shipping & handling, please return all opened and unopened product to your original purchase location. Valid for one purchase per household.
